Problem sentence or two  
sets out the  
question that  
needs solving  
with some  
calculations.

There are many  
ways children  
can solve these  
maths problems,  
one common  
approach is to  
read through the  
word problem and

create a word equation, then insert numbers (where suitable) in the place of words, so you can use maths to answer the original question.
