I am a heavy user of math tools, including Matlab, Maple, and others ... The reason the pencil is still used so much is that most of the "software for engineers" isn't written by "true engineers." Oh ...

Math Software's Arch Enemy: The Number Two Pencil - Reader Reactions

A staggering 98% of cyberattacks include an element of social engineering aimed at tricking end users. The victims are frequently company employees, who are often manipulated into revealing their ...

Watch for the five stages of social engineering

This understanding is often gained through performing an architecture study and perhaps doing some experimental modelling in MatLab or exploring the design ... The relentless advance of the industry, ...

The Great Windows 11 Computer Extinction Experiment

Engineering teams are used to modeling in MATLAB, pushing a button, having the tool generate some C code for their controller, then be done. In a service-oriented architecture (SOA), you don't even ...

Big Changes Ahead For Connected Vehicles

Cadence and MathWorks integrated the Cadence Virtuoso Analog Design Environment with MATLAB to accelerate processing of large data sets when verifying custom, RF and mixed-signal designs. Designers ...
