The purpose of the Medication Study Guide is to help you become more knowledgeable with administering medications and better prepared for the test. There are three sections to the Medication Study Guide. In Section 1, there are 118 questions divided into the following areas: 1.

Medication Study Guide - NCDHHS

This Medication Technician curriculum was originally developed for implementation in 1978. Its purpose was to satisfy federal regulations requiring a “ state-approved ” training program in medication administration for unlicensed personnel administering medications in certified skilled nursing facilities (CFR 405.1124 [g]) and certified

Certified Medication Technician Student Manual

The regulations state that medication administration is a nursing act. Nursing acts can be delegated by an RN to someone who they approve as being prepared and qualified. In DDA-licensed programs, the qualified person must be a Certified Medication Technician (CMT), who has completed a DDA-approved medication technician program.
