If your Janome Memory Craft 8000 is having a technical problem, resetting the machine may help. Resetting or recalibrating your machine is helpful if the screen goes blank or is no longer responding to selections. Step 1 Turn the machine off, and then press the start button, reverse button and auto lock button at the same time.

Janome was the first to develop a computerised machine for home use (the Memory 7, in 1979), the first to offer professional style embroidery to the home market (the Memory Craft 8000, in 1990) and the first to offer a long-arm quilting machine for home use (the Memory Craft 6500P, in 2003), the latest models now have up to 280mm (11 inches) of arm space, removable AcuFeed Flex dual feed, and ...

Janome UK & Ireland | About Janome

A full list of warning signals and corrective actions can be found in your manual. Are you collecting a fuzz bunny museum in your machine? Thread fuzzies can clog the tension discs or interfere with the feed dogs or bobbin case. The results can throw off upper or lower tension, cause thread loops or result in poor feeding. Fuzz-filled feed dogs ...
