11/2020~~

This partial replication of VanPatten (1990) addresses the effect of modality on attention to meaning and form by including a written mode and by using a different L2, that is, English as a foreign language. Six tasks were used in this study: (a) listening to the passage for content only, (b) listening for content while attending to the content word inflation, (c) listening for content while attending to the definite article the, (d) reading the passage for content only, (e) reading the ...
