tractor should do all right. For years my dad has run a NH 650 set on 4x5 with a 5600 Ford and it makes a good bale, pulls hard on steep hills and the tractor may run a little warm.

A 640 is strictly a 5' diameter bale but can be set to make em smaller. The add is wrong, can't make a 4x6 with em. I'm guessing when you mention autowrap it does not have the bale command which is a deal buster for me, but might work very well depending on how much hay you'll be rolling with it.
