developing and using optical techniques to study the adsorption and desorption of molecules to and from surfaces in ultrahigh vacuum.

Chemistry: A Molecular Approach: Tro, Nivaldo J ...

Nivaldo J. Tro's Chemistry: A Molecular Approach explains difficult chemical concepts in a concise and clear student-centered manner while also providing faculty with the flexibility to go more deeply into many key, often neglected topics, such as electron diffraction, molecular orbital theory, and free-energy changes under non-standard conditions. Chemistry is presented visually through multi-level images (macroscopic, molecular and symbolic representations), which helps students see the ...
