Non-Invasive Data Governance focuses on formalizing existing accountability for the management of data and improving formal communications, protection, and quality efforts through effective stewarding of data resources. Non-Invasive Data Governance will provide you with a complete set of tools to help you deliver a successful data governance program.

Non-Invasive Data Governance: The Path of Least Resistance ...

Non-Invasive Data Governance starts with the idea that the governance of data, and perhaps the governance of metadata, have been less formal than the ideal situation. Therefore, it makes sense to apply formality to the level of governance in a non-invasive manner as a first approach to implementing effective data governance in your organization.
