Oncology Nurse. Oncology nurses have the challenging role of delivering care to cancer patients of all ages. They coordinate and assist patients and their families through the difficulties and fears of a range of cancer types and treatments. Oncology nurses deliver crucial chemotherapy medications, monitor for side effects, educate and anticipate patients' needs or questions, and act as steadfast anchors throughout the patient's illness.

The programme will identify familiar cancer treatments within Oncology Nursing and explore alternative options available for patients and the future. The study day will provide attendees with the understanding of the patient's journey, from treating patients with SACT to radiotherapy , through to alternative methods such as complimentary therapies, nutrition and psychological care for the cancer patient.

Introduction to Oncology Nursing | Health Careers

This book provides a unique overview of oncology nursing care in a new health environment, one in which oncology nurses play an increasingly important role. In this regard, it addresses not only the biomedical aspects of new drugs but also the challenges they pose in day-to-day nursing practice. It also highlights the new skills that oncology nurses will need to develop in light of the changing care setting.

Principle of Nursing in Oncology | SpringerLink

A Bachelor of Science in Nursing degree is considered to be competitive for applying to an Oncology Nursing position, however at this time, nurses with an Associate's Degree in Nursing may apply as well. Specializing in oncology and cancer care requires the nurse to take on additional coursework and clinical training; there are also additional continuing education courses and contact hours that are specifically focused on various aspects of the oncology specialization.

How to Become an Oncology Nurse - Salary ...

This pandemic poses several challenges for oncology services. Oncology nurses are providing a pivotal role in the care and management of the novel COVID-19 in the year landmarked as the International Year of the Nurse. Implications for nursing practice: It is too early to tell what shape this pandemic will take and its impact on oncology care. However, several important clinical considerations have been discussed to inform oncology nursing care and practice.
