This solution targets a specific ICP (ideal customer profile). Initial pricing starts at $500,000/month with a 3-yr minimum

commitment. The customer gets a copy of Oracle's OCI environment running on their CIAB hardware plus any of Oracle Fusion SaaS applications.That \$18 million cost over 3 years is an operating expense, not a capital expense.

Oracle storage enables enterprises to simplify IT environments so they can operate more efficiently, more cost

effectively, and be more responsive to dynamic business needs. Our best-of-breed storage products and application-engineered storage solutions are co-developed with Oracle software to run faster, more efficiently, and offer unsurpassed capabilities for heterogeneous data centers.

Hardware Documentation - Hardware - Oracle Help Center

Medical device development is a complex process with quality serving as the highest concern. However, reducing development time is a pressure critical to establishing an early

position in a very competitive market. To manage the quality concerns, agencies such as the Food and Drug Administration (FDA) have been established to help guide and enforce best practices for the development of safe ...

FDA Validation of Medical Devices with National ...

Oracle has partnered with Inspirage to deliver a UDI solution, enabling Medical Device customers to meet the imposed sunrise date. Rapid Value 90 Our proven Rapid Value methodology helps customers combines value-based project planning, leading practice implementation accelerators, and pre-

configured packages to provide value and a strong foundation for growth.

Inspirage B.V. | Oracle Partner

Designing custom hardware, firmware, and software for Embedded Systems for medical, consumer and industrial products. Developing Custom Device Drivers.

Building Real-Time Control Systems. Medical Device development to meet FDA requirements.

Embedded Systems Experts Loftware Spectrum Cloud brings the power of Spectrum to the cloud. Redefining how enterprises create, manage and print labels,

Spectrum Cloud enables organizations to seamlessly implement, manage and scale their labeling operations across their global supply chain without the need to deploy and maintain hardware and software environments.
