~~Pearson Education Algebra 2 Reteaching Answer Key~~

In this 7th edition, Angel has rewritten chapter 3, Applications of Algebra, to ensure the material is clear and understandable for all students. Chapter 3 has been shortened from five sections to four, and the material on formulas has been moved from Chapter 3 to Chapter 2, where it now better reinforces the material on solving equations.

One program that offers everything needed to teach Prealgebra, Introductory Algebra, and Intermediate Algebra in one easy-to-use solution.

~~Algebra Foundations: Prealgebra, Introductory ... Pearson~~

)² This is a perfect square trinomial and can be factored as the square of a binomial. $9x^2 + 12x + 4$ and $9x^2$ and 4 are perfect squares. Write them as squares. $45 = 22 + 2(3x)(2) + 5 = 12x$ Check that $12x$ is twice the product of the first and last terms. It is, so you are sure that you have a perfect-square trinomial.
