Indigenous Perspectives on Protected Areas, October 2017 Protected areas (National parks, Wildlife sanctuaries etc) People And Protected Areas In

Protected areas under community governance, also known as Indigenous and Community Conserved Areas (ICCAs) are managed for ecological, economic, and cultural reasons by local communities and indigenous people, often with limited government recognition or authority.

Protected Areas | Global Forest Atlas

The need to exclude people from protected areas is in itself debatable. Numerous ecological studies have shown that not all human use is detrimental to wildlife conservation interests. Throughout the world, present-day forest quality and biodiversity patterns reflect the influence of past land use practices (e.g. Gomez-Pompa and Kaus, 1992). In fact, in some cases, excluding human activities ...

People and Protected Areas in South Asia. Thu, 30 Oct 2008 . There is a huge challenge to south Asian protected areas to demonstrate their contribution to biodiversity conservation whilst enhancing the livelihoods of resident communities. The book has 23 papers and most are country-specific (Bangladesh, Bhutan, India, Nepal, Pakistan and Sri Lanka), targeting a diverse set of issues to ...

People and Protected Areas in South Asia | IUCN

Protected areas are cultural artifacts, and their story is entwined with that of human civilization. Protecting places and resources is by no means a modern concept, whether it be indigenous communities guarding sacred sites or the convention of European hunting reserves. Over 2000 years ago, royal decrees in India protected certain areas. In Europe, rich and powerful people protected hunting ...

## Protected Areas in the Congo Basin: Failing both people ...

Galapagos has long been considered an isolated, well protected archipelago, the image portrayed by countless documentaries, photos, and articles about the unique creatures found there. At the same time, the archipelago has been a province of Ecuador for more than 170 years where people have a right to live, work, and thrive.

## People and Protected AreasGalapagos Conservancy, Inc.

In this context I introduce a new approach aimed at improving the efficacy of in situ conservation protected area schemes. I argue one solution can be found in legal geography scholarship. A legal geography approach empowers us to consider the intertwined regulatory people-place dynamics that enable or disable effective management practices. In the age of the Anthropocene, legal geography is ...

The Network Programme “ People and Protected Areas: Conservation and Sustainable livelihoods in partnership with local communities ” has been a joint initiative of the SEED division and WWF-India to coordinate and support the efforts of local and grassroots NGOs promoting innovative mechanisms to enhance local livelihoods for communities living in and around Protected Areas.

People and Protected Areas - WWF-India

In 2002 Brazil launched the largest tropical forest conservation project in history known as ARPA (Amazon Region Protected Areas). The goal: take 150 million acres of the Brazilian Amazon rainforest—an area larger than all the US national parks combined—and turn it into a combination of sustainable-use and strict protected areas. No easy task. But in a little over a decade ARPA has ...
