Phytochemical definition, any of various bioactive chemical compounds found in plants, as antioxidants, considered to be beneficial to human health. See more.

~~Phytochemical | Definition of Phytochemical at Dictionary.com~~

Phytochemicals are chemicals of plant origin. Phytochemicals (from Greek phyto, meaning "plant") are chemicals produced by plants through primary or secondary metabolism. They generally have biological activity in the plant host and play a role in plant growth or defense against competitors, pathogens, or predators.
