React: Up & Running: Building Web Applications eBook ...
Create React App . Create React App is a comfortable environment for learning React, and is the best way to start building a new single-page application in React. It sets up your development environment so that you can use the latest JavaScript features, provides a nice developer experience, and optimizes your app for production. You'll need to have Node >= 8.10 and npm >= 5.6 on your machine. To create a project, run:
