This article will discuss some important recent developments in Dutch telecommunications law. First of all, the outlines of the Bill for a new Telecommunications Act, based on a completely liberalized market for telecommunications networks and telecommunications services, will be addressed.

### Recent developments in Dutch telecommunications law ...

People moving into new properties expect ready access to modern telecommunications, including broadband and voice services. The Telecommunications in new developments (TIND) policy provides guidance for developers, property buyers, occupants and telecommunications carriers on this important matter. The latest policy, issued on 1 September 2020, reflects the new statutory infrastructure provider (SIP) laws and gives NBN Co greater flexibility in servicing new developments.
