Aquatic turtles, including red eared sliders, need much more in the way of housing and lighting. In order for your red eared slider to live as many years as possible, you'll need to buy the correct UVB lighting, a diet balanced between animal-based and plant-based foods, and a big tank for when your red eared slider becomes an adult. Read more below about how to properly care for a red eared slider, what kind of supplies and food to buy, and everything else they need to thrive in your care.

A Guide to Caring for Pet Red Eared Sliders
The red-eared slider (Trachemys scripta elegans), also known as the red-eared terrapin, red-eared slider turtle, red-eared turtle, slider turtle, and water slider turtle, is a semiaquatic turtle belonging to the family Emydidae.It is a subspecies of the pond slider.It is the most popular pet turtle in the United States and is also popular as a pet across the rest of the world.

Red-eared slider - Wikipedia
It's important to know how long a red-eared slider turtle can stay out of the water, because your pet turtle may be dehydrated and unable to survive without water. Excessive moisture may also cause your turtle to die. With most species of turtles, it is normal for them to require some water every day or every other day. Red-eared slider ...

How Long Can Red-Eared Sliders Go Without Water?
Complete Guide for Feeding Your Red-Eared Slider. As mentioned earlier, red-eared sliders eat a lot of items while in their natural habitat. While it is not possible to completely mimic the foods they eat in the wild while you keep them at home, you can provide them with similar options.

Red-Eared Sliders Complete A to Z Care Guide (Red-Eared ...
Red-eared slider turtles get their name from the small yellow to red [dash] around their ears. The [slider] part of their name comes from their ability to slide off rocks and logs and into the water quickly. These turtles can live up to 50 years in captivity ⚡ but they usually live between 20 to 30 years What does it look like?
