Before being worn for the first time, or if it has stopped, a Rolex watch must be wound manually in order to function correctly and precisely. To wind the watch manually, unscrew the winding crown completely, then turn it several times clockwise. (Turning in the other direction has no effect.) A minimum of 25 turns is required for adequate partial winding.

Swiss watch manufacturer Rolex introduced the original Cosmograph Daytona in 1963, one year after the first "24 Hours of Daytona" endurance race took place. The chronograph itself is named after the famed Daytona International Speedway in Daytona Beach, Florida. Rolex specially designed the Daytona with race car drivers and motorsport in mind, which is why it has always featured an extra-large ...
