In the United States, the Copperplate style of script is a very popular form of pointed pen calligraphy. It adorns many of the wedding invitations that calligraphers are commissioned to pen. The modern usage of the term Copperplate applies to several styles of shaded script.

Learn to Write Script in the Copperplate Style

The engraver could correct any inaccuracies in the written page by using his engraving burin. This transfer of hand panned script to the copper plate would eventually give rise to the name Copperplate for this general style of shaded script. In fact, it has become the term used in modern day calligraphy circles for an entire range of shaded script.

Script in the Copperplate Style: Engrosser's Script ...

A copperplate script is a style of calligraphic writing most commonly associated with English Roundhand. Although often used as an umbrella term for various forms of pointed pen calligraphy, Copperplate most accurately refers to script styles represented in copybooks created using the Intaglio printmaking method .

About This Font Family. One of the more elegant script fonts available, this design is based on calligraphic handwriting called "Copperplate" because of the copper plates that it was etched into for reproduction. This face is not related to Copperplate [Gothic] by the American type designer, F.W. Goudy. The name Copperplate comes from the fact that writing masters used to hand-write their books and then send them to an engraver who recreated all the subtle details onto copper plates, which ...
