Section 3: Cell Cycle Regulation - Damm's Science Page

Control of the
cell cycle is
necessary for a
couple of
reasons. First,

Download Free

Section 3 Cell

if the cell cycle were not regulated, cells could constantly undergo cell division. While this may be beneficial to certain cells, on the whole constant reproduction without cause would be

Download Free

Section 3 Cell

biologically
wasteful.

Second, internal
regulation of
the cell cycle
is necessary to
signal passage
from one phase
to the next at
appropriate
times.
