Tax accounting is the subsector of accounting that deals with the preparations of tax returns and tax payments. Tax accounting is used by individuals, businesses, corporations and other entities.

Tax Accounting Definition -
investopedia.com

However, if more than 80 per cent of this tax has already been collected at source, you won't have to make payments on account. Most people, however, who have tax due of rate more than £1,000 will need to make a ' payment on account ' for the current financial year; this will be offset against your tax return due next January.
