SMITHS Detection, part of the global engineering business Smiths Group, today announced that the New York Police Department (NYPD) has purchased and deployed Smiths hand-held explosives detectors on the New York City subway system.

New York Police Department purchases Smiths advanced---

INTRODUCTION TO MYCOLOGY The term "mycology" is derived from Greek word "mykes" meaning mushroom. Therefore mycology is the study of fungi. The ability of fungi to invade plant and animal tissue was observed in early 19th century but the first documented animal infection by any fungus was made by Bassi, who in 1835 studied the muscardine disease of silkworm and
