Creating a Lofted Surface In SolidWorks, you can also create a surface by lofting two or more sections. To create a lofted surface, choose the Lofted Surface button from the Surfaces toolbar. The Surface-Loft PropertyManager is invoked as shown in Figure 15-20 and you are prompted to select at least 2 profiles. Select the profiles to be lofted. All the options of creating a lofted surface are ...

Chapter 15 Surface Modeling - SolidWorks Thai Society

This tutorial assumes that you have prior surfacing knowledge as well as a general understanding of modeling concepts and the SolidWorks environment. You will not be walked through the user interface, the location of features on the ribbon or specifics which you should know such as applying dimensions or relations.
