Sound and Script in Chinese Diaspora examines the contested processes of standardization and fragmentation that the Chinese language has repeatedly undergone over the course of the long twentieth century. The volume opens with an introduction that lays out the author's critique of how practices of what she calls “ literary governance ” use

In Sound and Script in Chinese Diaspora, Jing Tsu explores the new global language trade, arguing that it aims at more sophisticated ways of exerting influence besides simply wielding knuckles of power. Through an analysis of the different relationships between language standardization, technologies of writing, and modern Chinese literature around the world from the nineteenth century to the present, this study transforms how we understand the power of language in migration and how that is ...
