Sound and Script in Chinese Diaspora examines the contested processes of standardization and fragmentation that the Chinese language has repeatedly undergone over the course of the long twentieth century. The volume opens with an introduction that lays out the author's critique of how practices of what she calls “literary governance” use problematic notions of “native speaker” and ...

Resource Center

In this moment of globalization Jing Tsu's *Sound and Script in Chinese Diaspora* asks readers to step back and critically contend with multi-faceted, polynodal presentations of Chinese as language and literature. Her textured and illuminating analyses of native language and writing debates, technological innovations, and the politics implicit in linguistic standardization open up possibilities for engaging with identity and "all
