We are running a repeat program in our Star SB-16 W/ Fanuc 18i TB control. This part keeps kicking up an alarm 1003 and 9035 the manuals are worthless for these alarm codes in terms of a solution. I am not sure if this has anything to do with the setup or if it programming. This part does challenge the work envelope in Z axis relative to the main spindle. After a turning operation on the main ...
