Levelling (or Leveling) is a branch of surveying, the object of which is: i) to find

Online Library Surveying And Levelling By N N

the elevations of given points with respect to a given or assumed datum, and ii) to establish points at a given or assumed datum. The first operation is required to enable the works to be designed while the second operation is required in the setting out of all kinds of engineering works.

What is levelling? - Surveying & Levelling

Levelling is the most widely used method of obtaining the elevations of ground points relative to a reference datum and is usually carried out as a separate procedure to those used in fixing planimetric position. The basic concept of leveling
