Handbook of Sustainable Development

'This Handbook demonstrates the well-established body of thinking on sustainable development which now exists, and its tighter focus today on limits to current economic growth patterns. But while there have been lots of big global debates on planetary boundaries, and thresholds for critical resources, there has been little progress on the ground and in getting the politics right. Contributing ...

Handbook (SCCDH) was an exception.

The topics of sustainable, smart, green, and  
healthy community development have been  
part of my lexicon since the 1990s. SCDH  
was published in 2010. Now it is almost a  
decade later (2017) for this second edition  
of SCDH.
