The Address Of The Eye  
The Address of the Eye: A Phenomenology of Film Experience. Vivian Sobchack. Overview. Cinema is a sensuous object, but in our presence it becomes also a sensing, sensual, sense-making subject. Thus argues Vivian Sobchack as she challenges basic assumptions of current film theory that reduce film to an object of vision and the spectator to a victim of a deterministic cinematic apparatus.

CONTACT - Opticians Soho | The Eye Company  
The eye-contact effect is a psychological phenomenon in human selective attention and cognition. It is the effect that the perception of eye contact with another human face has on certain mechanisms in the brain. This contact has been shown to increase activation in certain areas of what has been termed the 'social brain'. This social brain network processes social information as the face ...

---

What Eye Contact Can Do to You | Psychology Today UK  
Eye contact occurs when two animals look at each other's eyes at the same time. In human beings, eye contact is a form of nonverbal communication and is thought to have a large influence on social behavior. Coined in the early to mid-1960s, the term came from the West to often define the act as a meaningful and important sign of confidence, respect, and social communication.

Eye contact - Wikipedia  
Eye contact produces a powerful, subconscious sense of connection that extends even to drawn or photographed eyes; a fact demonstrated by Researchers at Cornell University who manipulated the gaze of the cartoon rabbit on several Trix cereal boxes, asked a panel of adults to choose one, and discovered, as they expected, that the box most frequently chosen was the one on which the rabbit was ...
