The American Heart Association and American Stroke Association publish medical guidelines and scientific statements on various cardiovascular disease and stroke topics. AHA/ASA volunteer scientists and healthcare professionals write the statements. The statements are supported by scientific studies published in recognized journals and have a rigorous review and approval process.

Guidelines & Statements - American Heart Association

The 2020 AHA Guidelines for CPR and ECC reflect the latest global resuscitation science and treatment recommendations derived from the 2020 International Consensus on CPR and ECC with Treatment Recommendations (CoSTR). This AHA Guideline is considered the gold standard with regard to clinical recommendations in the practice of resuscitation science not only in North America, but around the world.
