The Complete Guide to Growing Annual Flowers Written by Matt W (Greenhousestores) on 21st Oct 2016. It used to be the case that if you wanted to grow flowers year-round, you were limited to inpatiens, marigolds and geraniums. However, greenhouses give gardeners more choices and opportunities to grow a much wider variety of annual flowers.

Water the plants when the soil around them is dry. During dry periods, water at least once a week. Remember plants growing in containers require more regular watering than plants growing in the ground. The easiest way to work out the dryness of the soil is to stick your finger into the soil. If it feels dry to the first knuckle, water sparingly.
