By Kathy Brown The Edible Flower Garden: From Garden to ...

Edible flowers from your vegetable patch and herb garden. Herb flowers like basil, chives, lavender, mint, rosemary and thyme impart a more subtle flavour to food than the leaves. Borage (*Borago officinalis*) – the cucumber flavour of these attractive blue flowers adds interest to cakes, salads and pate. Flowers are easily removed and can be frozen in ice cubes or crystallized

Edible flowers: A beginner's guide - The English Garden

This is the home page's excerpt. We're taking a break from running supper clubs (for obvious reasons) but watch this space for more classes, workshops and other events coming soon.

The Edible Flower – Fork to fork eating in Northern Ireland

Daylily: Most people are surprised to hear that Daylily flowers are edible. The flowers are often stuffed and prepared like squash blossoms. Gem Marigolds (*Tagetes tenuifolia*): 'Lemon Gem' and 'Tangerine Gem' Marigolds are the only edible marigolds. As the names suggest, they have a citrus flavor, even though you won't smell a citrus scent.

Growing Edible Flowers in Your Garden - The Spruce

Pansy – The flower petals of the familiar garden pansy (*Viola x wittrockiana*) are edible and highly decorative. The petals have little flavour, but the whole flower can also be used. It has a grassy, wintergreen undertone that works well in fruit salad. Pea – Edible garden peas (*Pisum sativum*) produce edible flowers that look great in salads. Serve a blend of peas in a meal: shelled peas, pea tendrils, pea pods, and some flowers for garnish.
