Evidence-based care (also known  
as evidence-based practice) is the  
use of research evidence, in  
tandem with other factors, to  
inform clinical decisions (VIC DoH  
2015). Specifically, evidence-  
based care is an integration of:  
Best available research evidence;  
Staff skills, training and  
experience (clinical expertise);  
The patient's values and  
circumstances (e.g. financial  
situation); and.
