The Four Loves is a 1960 book by C. S. Lewis which explores the nature of love from a Christian and philosophical perspective through thought experiments. The book was based on a set of radio talks from 1958 which had been criticised in the U.S. at the time for their frankness about sex.

The Four Loves is based on the four Greek words for love: agápe, éros, philía, and storgé. Lewis defines each of these types of love and how they affect our lives. It was a short, lovely read. It was at times a little highbrow, but remember that it was written in the 40's by a Cambridge professor.

C.S. Lewis's famous work on the nature of love divides love into four categories: Affection, Friendship, Eros and Charity. The first three are loves which come naturally to the human race. Charity, however, the Gift-love of God, is divine in its source and expression, and without the sweetening grace of this supernatural love, the natural loves become distorted and even dangerous.

The four loves come from the Greek who use four words to describe what we use one for. Storge: Affection Love. Phileo: Friendship Love. Eros: Romantic Love. Agape: Divine Love. Storge Love: [The frosting on the cake] Affection is the most humble of the loves. It is the love of enjoying someone or something.

Two friends delight to be joined by a third, and three by a fourth, if only the newcomer is qualified to become a real friend. They can then say, as the blessed souls say in Dante, 'Here comes one who will augment our loves.' For in this love 'to divide is not to take away.' – C.S. Lewis, The Four Loves

As we know, Scripture tells us that love is the highest attribute. So let's look at the four types of love found in the Bible, and that Lewis helps to draw out in The Four Loves, published in 1960, and based on a radio series he did with the BBC a few years prior to the book's release.

Lewis examines four varieties of human love: affection, the most basic form; friendship, the rarest and perhaps most insightful; Eros, passionate love; charity, the greatest and least selfish. Throughout this compassionate and reasoned study, he encourages readers to open themselves to all forms of love—the key to understanding that brings us closer to God.

The Four Loves In the last chapter of the last Gospel (John 21), there is something strange going on. It is the scene where Jesus asks Peter three times, "Do you love me?" to repair the three times he betrayed Him. What is lesser known is that they are using two different words for "love."

The four loves play a large role in the Persona series. Specifically from Persona 3 onwards with the Social Link system (referred to as Confidants in Persona 5). You are told pretty early on that the bonds you form will help strengthen your power, and are encouraged to make as many bonds as you can.

In this candid, wise and warmly personal book, C.S. Lewis describes the four basic kinds of human love -- affection, friendship, erotic love, and the love of God. He explores the possibilities and problems of the love between parents and children; the love of men for other men and women for women; the love of men and women for each other; and the love of God that enriches all love.

With penetrating logic and winsome wit, he explores the four aspects of love: storge (affection), philia (friendship), eros (sexual love), and agape (selfless love). Lewis exposes the pitfalls in our loves, leading us to the agape love that God has for men and women and the kind we must develop to nurture our relationships.
