The German Genius: Europe's Third Renaissance, the Second ...

The German Genius: Europe's Third Renaissance, the Second Scientific Revolution and the Twentieth Century. Giles MacDonogh tackles a lengthy survey of German intellectual achievements that highlights a cultural rebirth. Inevitably revisionist arguments have surfaced recently, but most historians would not deviate from the standard line that German intellectual development was effectively stymied by the Thirty Years' War that throttled the country in the first half of the 17th century.
