Herbert "Harry" Stack Sullivan (1892– 1949) was an American Neo-Freudian psychiatrist and psychoanalyst who held that the personality lives in a complex of interpersonal relations. Harry was the oldest existing son of poor Irish Catholic parents, lonely childhood existence, and a poor relationship with father.

Sullivan's Interpersonal Theory - PSYCH-MENTAL HEALTH NP

Interpersonal psychoanalysis. Interpersonal psychoanalysis is based on the theories of American psychiatrist Harry Stack Sullivan (1892–1949). Sullivan believed that the details of a patient's interpersonal interactions with others can provide insight into the causes and cures of mental disorder. Current practitioners stress such features as the detailed description of clinical experience, the mutuality of the interpersonal process, and the not-knowing of the analyst.

Interpersonal psychoanalysis - Wikipedia

The second part of Evans' book details Sullivan's interpersonal theory of psychiatry and his conception of humans as primarily social beings, emphasizing his departure from basic psychoanalysis and its emphasis on early sexual development. In addition to departing from Freud, Sullivan was also critical of Kraepelinian psychiatry with its ...
