The Manhattan Projects (Volume) - Comic Vine

I read the The Manhattan Projects' comic books Sun Beyond The Stars #1-4 that covers the content of this volume. The cancelled series is reborn with this alien filled average fare that is not really needed to be read, my advice, don't bother, end the series reading at The Manhattan Projects, Vol. 5, but on the other hand as a stand alone science-fiction volume it's pretty good - 8 out of 12.
