Although the age ranges of generations are not hard and fast, it's safe to say that many of your company's leaders in the next 10 to 15 years will be millennials. A lot of people still see millennials in their minds as college students or just starting their careers, but the reality is that many of them are well into their thirties, mid-career, with plenty of experience under their belts.

What It Looks Like to Develop the Next Generation of Leaders
