Theory of  
Garment – Pattern  
Making: The student of  
clothing should possess a  
good working  
knowledge of the parts  
of the body, the various  
types of figures, physical  
proportion, the effects of  
movement, and the  
relation of various fitting  
and draped garments to  
the body.

Pattern construction -  
ScienceDirect

A pattern is the actual copy of different parts of a garment that is made by cutting board paper after sketching on it.

According to this pattern cloth is cut and then garment is made.

For industrial production different patterns are made for different size and a

# Download File PDF The Theory

marker is made with these different patterns for a large-scale production.
