Stakeholders can be internal – employees, managers, trade union members or departments, for example, or external such as customers or suppliers. A distinction can also be drawn between primary and secondary stakeholders. Primary stakeholders define the business and are vital to its continued existence.

[STAKEHOLDER ANALYSIS AND MANAGEMENT](#)

A primary or secondary stakeholder? Secondary. A direct or indirect stakeholder? Indirect. 6. Trade unions. A trade union (also called labor union) is an organization of workers in a particular industry that exists to secure good improvements in pay, benefits, safe working conditions, or social and political status through collective bargaining.

[The 10 Types of Stakeholders That You Meet in Business](#)

A stakeholder is someone who has an interest in or who is affected by your project and its outcome. This may include both internal and external entities such as the members of the project team, project sponsors, executives, customers, suppliers, partners and the government. Stakeholder management is the process of managing the expectations and the requirements of these stakeholders.

2. Identify stakeholder groups Various sets of stakeholders have been suggested by different writers. Stakeholders can be internal – employees, managers, trade union members or departments, for example, or external such as customers or suppliers. A distinction can also be drawn between primary and secondary stakeholders. Primary

[Stakeholder Analysis and Management](#)

Stakeholder management and political collaboration is key to the execution and assessment of successful change. The success and failure of projects is determined by the stakeholders’ perception of the projects’ outcomes. Many project failures stem from lack of genuine involvement or a failure to identify them at all.
