Thermotherapy for Neoplasia, Inflammation, and Pain pp 527-539 | Cite as Thermotherapy of Pain, Trauma, and Inflammatory and Degenerative Rheumatic Diseases Authors

Thermotherapy of Pain, Trauma, and Inflammatory and ...

Thermotherapy is frequently used combination with other therapies to relieve pain, such as hydrotherapy (water therapy). In many cases, cryotherapy (cold therapy) is used to reduce inflammation before thermotherapy is used to increase blood flow to muscles. There are several methods of delivering thermotherapy to the body.

Hot Applications (Thermotherapy) - Why it is Recommended Objective Ulcerative colitis (UC) is a dynamic disease with its severity continuously changing over time. We hypothesised that the risk of colorectal neoplasia (CRN) in UC closely follows an actuarial accumulative inflammatory burden, which is $\frac{Page 7/8}{Page 7/8}$

inadequately represented by current risk stratification strategies. Design This was a retrospective single-centre study. Patients with extensive UC who ...
