The puffin guarding its burrow will often have a soldier-like stance, standing erect, with its head down, making slow and exaggerated movements with its feet. When a puffin first lands after flight it will often display another "I don't want any trouble" stance - this time with one foot in front of the other and its wings wide open.

Puffin | Facts, pictures & more about Puffin

A puffin's beak (or bill) changes colour during the year. In winter, the beak has a dull grey colour, but in spring it blooms with an outrageous orange! It's thought that the bright colour helps puffins assess potential mates. 4. Puffins are carnivores and live off small fish such as herring, hake and sand eels. 5.

Upon finishing Time of Wonder, one feels as though they have lived through an entire summer at Penobscot Bay. The authors use of the word you allows readers to picture themselves as part of the story, picturing the tides coming in going, feeling the salty breeze, building castles in the sand, and searching for tiny creatures along the shore.

Time of Wonder by Robert McCloskey - Goodreads

Best Time to See Puffins? So, to conclude, I'd say it should be straightforward to nail your puffins, so long as you come between, say, April - but not too early - and August. You won't find any outside that time frame. And don't get too hung up on just puffins. There's a lot of other interesting stuff going on along the seaboard.
