Abstract: A companion volume to Exploring the Modern: Patterns of Western Culture and Civilization (Blackwell, 1998). Both volumes offer a perspective on the central features of what we take to be western modernity, drawing on literature, art, cultural history, and theory. This volume pursues the theme of transgression, in that what is construed as ' other ' can both be devalued and proscribed, but can also be a source of fascination and creativity, and examines this through debates on the ...
