By starting with the foundation of how people perceive the world around them, it shows how users touch, navigate, and comprehend environments made of language and pixels, and how we can make those places better.

Understanding Context | A Book about Environment, Language ...
Understanding Context is a sort of wunderkammer of humanistic study. I would recommend it to any intellectual explorer and adventurer who is seeking to understand how understanding works. Hinton weaves together a tapestry of theoretical perspectives about cognition, language, and place along with his own observations about how the world is arranged so that it is
