The Bell 206 is a family of two-bladed, single- and twin-engined helicopters, manufactured by Bell Helicopter at its Mirabel, Quebec, plant. Originally developed as the Bell YOH-4 for the United States Army's Light Observation Helicopter program, it was not selected by the Army. Bell redesigned the airframe and successfully marketed the aircraft commercially as the five-place Bell 206A JetRanger. The new design was eventually selected by the Army as the OH-58 Kiowa. Bell also developed a seven-p

Bell 206 - Wikipedia

The JetRanger can trace its lineage back to an unsuccessful contender for a US Army competition for a light observation helicopter, which was won by the Hughes 500. This first Model 206 made its first flight on December 8 1962, while the following civil 206A, powered by a 235kW (317shp) Allison C18A, followed, flying on January 10 1966.

Bell 206 JetRanger - Airlines.net

Originally developed as the Bell YOH-4 for the United States Army's Light Observation Helicopter program, the 206 failed to be selected. Bell redesigned the airframe and successfully marketed the aircraft commercially as the five-place Bell 206A JetRanger. The new design was eventually selected by the Army as the OH-58 Kiowa.
