The ZM1 meter is specifically designed for the sound contractor and loudspeaker user. Simply connect the probes to the device under test. The ZM1 displays ac impedance and calculated power for constant voltage (transformer coupled) loudspeaker systems. The ZM1 measures impedance by applying a constant current to the device under test (such as a resistor, a capacitor, an inductor, a loudspeaker, or any electrical circuit) and then measuring the resulting voltage.

OPERATOR'S MANUAL
Gold ZM Control regulates proper moisture levels through the humidifier or air conditioner, depending on humidity preference, has built-in frost control option reduces humidification when condensation or frost could occur on windows and more features.
