From Wikipedia, the free encyclopedia. Jump to navigation Jump to search. " Visions of the 21st Century " is a speech delivered by Carl Sagan at the fiftieth anniversary celebration of the United Nations on October 24, 1995 (United Nations Day) in New York in the Cathedral of St. John the Divine. In the introduction, Sagan discusses the human unity that is present in the world despite its vast human diversity.

Visions of the 21st century - Wikipedia

Work Description. One way to shape technology and its embedding in society in the 21st century is through the visions that guide their development, especially concerning the long-term societal perspective. A critical discussion and assessment of these visions is a prerequisite for influencing the course of development .
